Art Unit: 2145

For: METHOD AND APPARATUS FOR  
CUSTOMIZED LOGGING IN A NETWORK  
CACHE

---

Examiner: A. Q. Choudhury

**REQUEST FOR EXAMINER INTERVIEW**

Examiner Choudhury,

In preparation of a Response to the Office Action mailed on July 9, 2008, applicant's representative respectfully requests an interview at 2:00 p.m. on September 22, 2008.

Applicant's representative submits the following agenda for your consideration:

- A. Abraham does not disclose or suggest "an interface to make selection for logging of some or all of a plurality of fields...and to make specification of a sequence in which the selected fields are to appear in a log file."
- B. Abraham and Hyder, individually and in combination, do not disclose or suggest the recited first, second, and third data structures.
- C. There is no reason to combine Abraham and Hyder, at least because one skilled in the art would have no reasonable expectation of success.

Should additional information be required, the Examiner is encouraged to contact the undersigned representative at (206) 359-8077. Otherwise, applicant's representative

will call Examiner Choudhury at (571) 272-3909 on September 22 at 2:00 pm EST (11:00 am PST).

Respectfully submitted,  
Perkins Coie LLP
